WORK EXPERIENCE

Software Engineer | Capgemini

Hyderabad, India | Sep 2024 – Present

Global IT services and consulting firm with 360,000+ employees and \$22B revenue; client-facing engineering team for financial services.

- Architected 20+ payment processing APIs in Spring Boot handling 10,000+ daily transactions at 99.9% uptime, directly eliminating an estimated 3 hours of daily system downtime.
- Built AWS S3-based file ingestion pipeline that cut document processing latency by 15% and scaled to 5,000+ daily uploads without provisioning additional infrastructure.
- Drove test coverage from under 60% to 92% by writing 200+ JUnit and Mockito unit and integration tests, reducing production bug rate by 40% over 2 consecutive release cycles.
- Standardized API documentation for 20+ endpoints using Swagger/OpenAPI, cutting new-developer onboarding time by 25% and eliminating 3 recurring cross-team miscommunication incidents per sprint.
- Delivered all 6 sprint commitments on time across 2 quarters in an Agile Scrum team of 8 engineers, contributing 15+ pull request reviews that measurably improved code quality scores.

PROJECTS

MediCompare – Healthcare Price Transparency Platform

Aug 2025 – Nov 2025

Spring Boot, React.js, MySQL, Google Maps API, Razorpay, AWS (EC2, RDS), Redis

- Designed and shipped a full-stack platform allowing real-time price comparison across 50+ hospitals, reducing out-of-pocket costs for users by up to 40% and attracting 2,000+ registered users within 8 weeks of launch.
- Reduced geolocation query latency from 600ms to under 200ms by layering Redis caching on top of the Google Maps API integration, sustaining 10,000+ monthly searches with zero timeouts.
- Processed 500+ confirmed patient appointments with a 0% payment failure rate by integrating Razorpay's payment gateway with idempotency keys and webhook-based reconciliation.
- Deployed on AWS EC2 with RDS-backed MySQL and auto-scaling policies, sustaining 99.5% uptime across a 3-month production window under variable traffic loads.

CareerPath AI – Intelligent Career Development Assistant

Mar 2025 – Jun 2025

Python, Flask, React.js, TensorFlow, NLP, PostgreSQL, AWS, OpenAI API

- Shipped an AI-powered career guidance platform to 1,000+ active users with a 4.8/5 user satisfaction rating, leveraging OpenAI API and custom NLP pipelines for resume analysis and skill-gap detection.
- Engineered a collaborative-filtering job recommendation engine scoring 10,000+ live postings against 20+ candidate parameters, improving job-match relevance by 35% over a keyword-only baseline.
- Cut average API response time from 800ms to under 150ms by adding PostgreSQL composite indexes and query plan analysis, reducing p95 latency by 81%.
- Generated personalized week-by-week learning roadmaps for 1,000+ users using TensorFlow models, reducing average self-reported time-to-job-readiness by 3 weeks.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), SQL, HTML5, CSS3

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, Flask, RESTful APIs, Microservices

Frontend: React.js, Redux, Bootstrap, Tailwind CSS

Databases: MySQL, PostgreSQL, MongoDB, Redis

Cloud & DevOps: AWS (EC2, S3, RDS), Docker, Jenkins, Maven, CI/CD Pipelines, Git, GitHub

Testing & Docs: JUnit, Mockito, Swagger / OpenAPI

EDUCATION

Bachelor of Technology, Computer Science

2021 – 2024

Lovely Professional University, Punjab | GPA: 3.26 / 4.0 (8.15 / 10.0)

Diploma, Computer Science

2019 – 2021

Lovely Professional University, Punjab | GPA: 3.31 / 4.0 (8.27 / 10.0)

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Cloud Practitioner – Amazon Web Services (Jun 2026)
- Machine Learning Specialization – Coursera / DeepLearning.AI (Nov 2023)
- Competitive Programming: 800+ problems solved on LeetCode; consistent top-5% global ranking
